DPIIT Startup Recognition & Tax Exemption

Under the Startup India Action Plan, startups that meet the definition as prescribed under G.S.R. notification 108(E) (https://www.startupindia.gov.in/content/dam/invest-india/Templates/public/Gazette_060226.pdf) are eligible to apply for recognition under the program. The Startups have to provide support documents, at the time of application.

Eligibility Criteria for Startup Recognition:

- » The startup should be incorporated as a Private Limited Company or registered as a Partnership Firm, Limited Liability Partnership, or Cooperative Society.
- » Turnover should be less than INR 200 Crores (INR 300 Crores for DeepTech startups) in any of the previous financial years.
- » An entity shall be considered a startup for up to 10 years (20 years for DeepTech startups) from the date of its incorporation.
- » The startup should be working towards innovation or improvement of existing products, services, and processes, and should have the potential to generate employment or create wealth. An entity formed by splitting up or reconstruction of an existing business shall not be considered a "Startup".

For more details please refer to the attached notification
